

## Product Description

The Silver Pigeon 1 marks the dividing line between Beretta's more economical double guns and the highly decorated luxury models. While popularly priced, it offers the aesthetics and materials of the premium over-unders. The frame has extensive, but refined, floral and scroll decoration that will make this shotgun a source of pride for years to come. The oil-finished stock is select walnut finish. It has the same dual-conical locking mechanism that lets Beretta over-unders stand up to years of constant shooting and to be passed on from generation to generation. Placing the locks between the barrels allows a low frame profile that gives Beretta over-unders an unmatched lively feel and natural pointability. Befitting of a field gun that will be used in exciting hunting situations, the safety is automatic, resetting each time the Silver Pigeon is opened for reloading.
