

Gauge: 12-Gauge **Chambered for:** 2-3/4" and 3"

The Benelli M4 Tactical shotgun is a unique, Auto-Regulating Gas-Operated (A.R.G.O.) semi-auto. The M4 Tactical is the combat service shotgun of the U.S. Joint Services today.

- Battle-proven reliability
- Picatinny rail for mounting scopes, sights, and optics
- Ghost-ring sights for quick target acquisition

Originally designed in 1998 for the U.S. Marine Corps, the M4 (M1014) was extensively tested at the Aberdeen Proving Ground in Maryland. It proved totally reliable for safety, function, and performance.

For reliability when it counts, select the M4 Tactical shotgun.

Now the same Benelli M4 used by the U.S. Marine Corps can be your home defense shotgun of choice. When the U.S. Marine Corps went shopping for a shotgun, they bought the M4 — the 12-gauge shotgun that functions the first time, every time. Its unique Auto Regulating Gas Operated (A.R.G.O.) system developed by Benelli engineers has dual stainless steel, self-cleaning pistons located just ahead of the chamber that operate directly against the bolt assembly.

The M4 Tactical comes standard with a Picatinny rail for optics, a fully adjustable ghost-ring rear sight and fixed-blade front sight and a black synthetic pistol-grip style stock. An optional standard stock is offered. With features and reliability that do it for the U.S. military, the Benelli M4 is an excellent choice for your own home defense plan.
