

Custom AR15 Dust Covers

Laser engraved, mil-spec ejection port covers. These ejection port covers are stamped steel construction, heavy phosphate coated, then laser engraved. Charge the weapon, let the bolt go forward, or fire your first shot to reveal the message and/or image. Installation is a simple, 10-minute job. A great way to show off your AR-15 and make a statement!

Custom port covers available! Don't want one of our pre-made designs? Order one of our Custom options (Text only, Graphic, 2nd Side) and let us know what you want by contacting us or through the Order Comments dialog during checkout, and we'll do up a custom one for you!

Please note: These covers fit standard .223/5.56mm AR-15 upper receivers. They will not work with Umarex .22 or RRA 9mm.

Key Features:

- Stamped steel construction
- Military specification heavy phosphate coating
- Can be put on any standard AR-15 upper receiver
- Custom options available - Make a statement!
- 2nd Side engraving for only \$10 more
