

Penn International V ARA Stand-up Rods

Ideal for any offshore challenge, Penn International V ARA Stand-up Rods feature all AFTCO Rollers for minimal line wear, tubular P450 Glass, and a machined, Aluminum Butt, gimbal, and reel seat for maximum lifting power and durability. Foregrip material is EVA foam for the ultimate in durability and comfort.

- To reduce friction and increase leverage, International V Stand-up rods come with Aftco roller guides to reduce resistance.
- We incorporated Aluminum-Oxide, Pac-Bay Turbo guides in-between the Aftco Rollers for the best combination of line protection and durability for the money. (Select Models)
- Stuart components provide increased strength and aluminum butts allow for easy access in and out of the rod holder.
- We offer a kite rod model for the increasingly popular method of kite fishing. EVA foregrips give anglers added comfort for long battles and maximize torque against hard pulling fish.

1 piece hollow e-glass construction. Aftco roller guides (select models). Pac Bay turbo guides (select models). EVA fore grips. Stuart Aluminum straight butt section (Bent butt designated as B). Aluminum gimbal.
